Comments:

Mr. Underwood:

We received your inquiry regarding this application. You raised a question as to whether any statutory requirement existed for the claim language to identically appear in the specification.

The final office action was not intended to convey such a requirement.

The exact quotations cited from the claims were provided to avoid ambiguity, so that applicant can separate the rejected subject matter from the non-rejected subject matter. It was not provided with the intent of demanding that those exact quotations appear in the specification. The rejection is based on a finding that the subject matter identified does not meet the requirements of 35 USC 112, first paragraph, and this statute is quoted at the beginning of the action. 35 USC 112 as cited in the action does not make any additional requirement for identical words appearing in both the specification and claims.
